DentaQuest

Experience you can count on.

DentaQuest is the most experienced dental benefits administrator in the nation.

With more than a thousand employees and offices throughout the United States including Massachusetts, Wisconsin, Florida, Maryland, Texas, and South Carolina, we have the resources and expertise to help people achieve better oral health.

We've been a trusted partner in dental care for more than four decades. As we've grown, our products and services have expanded to include Medicaid, Medicare Advantage, and CHIP recipients, group and individual members in the commercial market, and adults and families seeking benefits on healthcare exchanges.

“Our experience and service allows our clients to be confident in their choice to partner with us.”

STEVE POLLOCK, CHIEF OPERATING OFFICER

Experience you can count on

More than 18 million members – and growing – trust our experience to provide efficient, patient-centric dental benefits. They know they can rely on us to put experience into practice to deliver the best oral health solutions no matter how the healthcare landscape changes.

As healthcare reform impacts the traditional boundaries of commercial and government care, our focus remains on compliance, affordability, and superior service. Expertise in every market space allows us to meet new government mandates while continuing to offer innovative, flexible dental benefits.

Powered by data

Providers and patients gain customized support from DentaQuest's on-staff experts, who work in concert with our state-of-the-art IT platform to analyze decades' worth of claims data. We identify usage, spending, and treatment patterns to bring our valued partners cost-effective benefit plans and precise, thoughtful dental management.

Our clients experience the value that results from our ability to dig deep into extensive stores of data: the right treatments and services, at the right time and the right cost. We work with clients and dentists to create improved efficiency of care, lower costs, and ultimately, better health for members.

Our commitment

Our mission is to improve the oral health of all. In fact, we're the only dental benefits administrator in the United States that has created a Foundation and Institute committed to improving the nation's oral health.

We're helping to build healthier communities through the quality improvement programs and clinical care of our DentaQuest Institute, and through the philanthropic work and promotion of better oral health through our DentaQuest Foundation. Our dental education, prevention and wellness programs are designed to improve oral health outcomes, while the DentaQuest Oral Health Center brings patients and dentists together to achieve better lifelong oral health.

Driven to do more for our clients, members, and providers, we deliver affordable, flexible benefits to help bring better health to millions of Americans, no matter what the future brings.
